

Dear Bingo Participant

Welcome to Factorio Bingo, hope you're excited and ready to get started.

We have created a custom mod and map with new and familiar elements for you to complete.

The game time is 2 hours, every 5 minutes the game will write the remaining time.

You all have time to join the game before we start. We won't start the 2 hour timer before everyone has joined.

On the back of this sheet you will find all the tasks for Bingo that you have to solve. Some tasks will grant you points¹ here and now, others will be calculated at the end (the best in a category takes all the points)

During the game you might be awarded prizes (items for your inventory), please keep them on your character, and harvest your body if you die.
